
Subject: [PATCH 3/7] BC: bean counters core (API)
Posted by [dev](#) on Tue, 29 Aug 2006 14:50:18 GMT

[View Forum Message](#) <> [Reply to Message](#)

Core functionality and interfaces of BC:
find/create bean counter, initialization,
charge/uncharge of resource, core objects' declarations.

Basic structures:

bc_resource_parm - resource description
bean counter - set of resources, id, lock

Signed-off-by: Pavel Emelianov <xemul@sw.ru>
