Hi!

I am so sorry for wasting *your* time! Geez..what a attitude.

Silly me..I actually believed this forum was here to help people with problems they have related to Openvz. I was also going to share some of my knowledge learned in return...that's normally the way it works. I am 100% sure there are people who are much less compusive as I who have the same problems.

Never mind...I'll leave you alone...sorry to bother you and waste your time.

Bryon
