Yes, TCP connections have the same problem:

```
vz:~# man telnet
```

```
Reformatting telnet(1), please wait...
```

```
vz:~# telnet 10.0.0.12 110
```

```
Trying 10.0.0.12...
```

```
vz:~# telnet -b 10.0.0.108 10.0.0.12 110
```

```
Trying 10.0.0.12...
```

```
Connected to 10.0.0.12.
```

```
Escape character is '^]'.
```

```
+OK Hello there.
```

Thanks for your help.
