Subject: Re: Problem with X11 and VNC Posted by Vasily Tarasov on Tue, 05 Sep 2006 10:23:04 GMT View Forum Message <> Reply to Message

Hmmm...

"Remote: No xauth program; cannot forward with spoofing." Are you sure xauth is installed in \_VE\_ which you want to connect to? Please, do rpm -qa | grep xauth in this VE to check.

May be you can give me a remote access and I'll try to figure out what's the problem?

Thanks.
