Subject: UnionFS and OpenVZ Posted by wimalopaan on Tue, 03 Jan 2006 21:15:43 GMT View Forum Message <> Reply to Message

Hi,

I'm using UnionFS together with VServer for some time, and I want to use UnionFS also with OpenVZ. But, sadly, UnionFS supports only kernels >= 2.6.9.

Are there OpenVZ-Versions >= 2.6.9 to experiment with?

Wilhelm
