Patch 2/5 in this series provides hooks, and they are pretty unintrusive.

```
 mm/filemap.c     |    4 ++++
 mm/page_alloc.c  |    3 +++
 mm/rmap.c        |    8 +++++++-
 mm/swap.c        |    1 +
 mm/vmscan.c      |    1 +
```
