mhm nu geht das aber nu hab ich ein anderes Problem

Quote:

```
PC06:/vz/template/cache# vzctl start 101 Starting VPS ...
```

```
VPS is mounted
```

```
Adding IP address(es): 192.168.123.8
```

```
RTNETLINK answers: No such device
```

```
vps-net_add ERROR: Unable to add route /sbin/ip route add 192.168.123.8 dev venet0 src
```

```
192.168.123.64
```

```
VPS start failed
```

```
Stopping VPS ...
```

```
VPS was stopped
```

```
VPS is unmounted
```

```
PC06:/vz/template/cache#
```

Wenn ich selber `/sbin/ip route add 192.168.123.8 dev venet0 src 192.168.123.64` ausführe kommt:

Quote:

```
PC06:/vz/template/cache# /sbin/ip route add 192.168.123.8 dev venet0 src 192.168.123.64
```

```
RTNETLINK answers: No such device
```
