Subject: *SOLVED* NFS
Posted by ganeshlinux on Fri, 29 Sep 2006 07:23:00 GMT

Hi,

  When i try to use NFS option(restarting nfs) gives me the following error:

nfssvc: Function not implemented

  This means NFS module is not loaded in the kernel.

  I used lsmod and found the following for nfs

nfs   101268 0

  I tried modprobe and depmod to no effect. Where can i move from here regarding this NFS
issue.
