Hi list,

Patch removing logmessage "Open /dev/pts/X"
from src/enter.c when entering VE

Before:

```
# vzctl enter 1010  
entered into VE 1010  
Open /dev/pts/0  
    root@dev-test2:/#
```

After:

```
# vzctl enter 1010  
entered into VE 1010  
root@dev-test2:/#
```

Best regards,

Segtel A/S
