Subject: Top Patch exists? Posted by mckayfer on Thu, 19 Oct 2006 18:39:57 GMT View Forum Message <> Reply to Message

Hello,

I want to know, if there already exists a patch for top, so that if I use the top command in a virtual System only the tasks which runs on the virtual system and not all tasks are shown?

If yes, do anybody also know, where I can find it?

Thanks so far
