Hello,

So, can someone please tell me if and when will be possible to run an OpenVZ kernel based on vanilla 2.6.17 or 2.6.18?

Is anyone able to give me a rough estimate of ETA?

As far as I know, OpenVZ kernel based on 2.6.18 should be realeased this week. BTW, even now, you can download 2.6.18-028test001 from git (<http://git.openvz.org/>) and try it.

HTH,

vass.
