
Subject: [PATCH 3/13] BC: beancounters core and API

Posted by [dev](#) on Thu, 09 Nov 2006 16:49:24 GMT

[View Forum Message](#) <> [Reply to Message](#)

Core functionality and interfaces of BC:
find/create beancounter, initialization,
charge/uncharge of resource, core objects' declarations.

Basic structures:

bc_resource_parm - resource description
beancounter - set of resources, id, lock
