Subject: Re: Checkpointing does not work with bind mounts?
Posted by kfhdk on Fri, 17 Nov 2006 08:17:34 GMT

Sorry the late answer.
Did you get this problem solved?

I have created a little vzmount/vzumount program.
As it mounts the filesystem as simfs, it works with checkpointing.

Attached file.
gcc -o vzmount vzmount.c
ln vzmount vzumount

./vzmount /source/dir /destination
./vzumount /destination

Regards,
Kristian Høgh
