Hi all,

Well I have this problem with two differents servers, my kernel is: 2.6.8-022stab078.14-smp

I have working the quotas but some day the quotas don't work. And I can't create users using cPanel or DirectAdmin.

Sometimes I fixed it doing that: vzctl stop VID vzquota drop VID vzctl start VID

But now does not work. I don't know what more to do.

**Thanks**
