Subject: Re: SOLVED* Cloned but the mysqld timed out in cloned VE Posted by zenny on Tue, 21 Nov 2006 06:13:57 GMT View Forum Message <> Reply to Message

Dear dev:

Of course, the entire VE to be cloned needs to be stopped before cloning. So I did accordingly. cp -a and cp -r didn't help.

However the tar command as I said earlier helped and it worked flawlessly.

I am posting here it could be helpful to someone who encounters similar problem. All the best.
