---

i am install cpanel but i have error

```
[root@host cpins]# sh latest
```

```
Creating directory install
```

```
Verifying archive integrity...latest: /usr/bin/tr: /lib/ld-linux.so.2: bad ELF interpreter: No such file or directory
```

```
latest: fork: Cannot allocate memory
```

```
Error in checksums: is different from 945309407
```

plz help me
