This output of the last command looks rather odd:

|        |             |                  |                  |             |
|--------|-------------|------------------|------------------|-------------|
| reboot | system boot | 2.6.16-026test01 | Wed Dec 20 22:24 | (1+10:20)   |
| reboot | system boot | 2.6.16-026test01 | Wed Oct 25 21:58 | (57+10:46)  |
| reboot | system boot | 2.6.16-026test01 | Mon Jul 17 02:32 | (158+06:12) |
| reboot | system boot | 2.6.16-026test01 | Mon Jul 17 02:31 | (00:00)     |

Any ideas why reboot is logging in?
