Jan,

> why you do not install gcc into VE? I'm handling VE almost as ordinary  
> system running on physical HW. Template which come with OpenVZ (at least  
> for Debian which I'm using) is very basic instalation of Linux, I have  
> to install there numerous packages to be able use it for my work.  
cause templates are done as a basic system which can be run  
and everyone can isntall then everything he wants.  
you can tar your enhanced VE then and use it as template  
for future VEs. Most people wouldn't like to have huge VEs  
with everything installed from the beginning.

Thanks,  
Kirill
