Pleae take a look at <http://forum.lxlabs.com/index.php?t=msg&th=776&start=0&S=09a6ab60a6ffb717093e079a79c1926c>.

I learned Linux on Debian and switched to CentOS because I found that the popular control panels will not run on Debian.

Keep an eye on HyperVM as the developers are very responsive to suggestions.

I hope this helps.
