Thank you for your report and useful notes.

I filled the bug, concerning the problem:
http://bugzilla.openvz.org/show_bug.cgi?id=437

At
http://bugzilla.kernel.org/show_bug.cgi?id=7415
comment #28 and comment #32 content patches.
They're very small and I guess you can apply them for
OpenVZ without changes. Can you try them, please?

Thanks in advance.
