This is a know BUG. We've fixed in in 028test011 kernel with
<http://git.openvz.org/?p=linux-2.6.18-openvz;a=commit;h=dbf96c6ee94d3d5e6d2d0c20ef4c5f49f4354142>

As far as DRBD driver is concerned it will appear in 028test013 kernel soon.
