Subject: When do user bean counters reset?
Posted by VinzC on Sat, 29 Oct 2011 10:48:06 GMT

Hi all.

I was used to see user bean counters being reset each time a container is restarted or stopped.
Now it doesn't seem to be true with OpenVZ kernel sources 2.6.32.

So when are those counters reset with VZ kernel 2.6.32.11.1 and vzctl 3.0.28?
