Subject: [PATCH 1/6] SUNRPC: split cache creation and PipeFS registration  
Posted by [Stanislav Kinsbursky](#) on Fri, 25 Nov 2011 13:16:15 GMT  
[View Forum Message](#) <> [Reply to Message](#)

---

This precursor patch splits SUNRPC cache creation and PipeFS registration.  
It's required for latter split of NFS DNS resolver cache creation per network namespace context and PipeFS registration/unregistration on MOUNT/UMOUNT events.

Signed-off-by: Stanislav Kinsbursky <[skinsbursky@parallels.com](mailto:skinsbursky@parallels.com)>
