Subject: can not remove file (no owner , no permission)
Posted by blackmetal on Sun, 15 Jan 2012 12:43:54 GMT

Hello,
we have a file in our linux server and it does not have owner or permission see the output :

[root@user mydirectoryname]# ll
total 0
?--------- ? ? ? ? ? yourdirectory

how can i remove that ?
i try rm -Rf 1 but it did not removed,

and also i try stop container and try remove file via main node but no success,

Thanks,

It looks like a corrupted filesystem. Run fsck.
