Subject: Proxmox VE 2.0 released
Posted by Martin Maurer on Fri, 30 Mar 2012 11:35:13 GMT

Hi all,

We just released Proxmox VE 2.0 today!

All details can be found here:
 http://forum.proxmox.com/threads/8929-Proxmox-VE-2-0-final-r elease-!!!

Just a small note, Proxmox VE 2.0 is based on Debian Squeeze but uses the latest stable OpenVZ kernel, based on RHEL6x.

Best Regards,
Martin Maurer

Congratulations, Martin,

Its been a long time coming, and much anticipated. I look forward to
upgrading my final lenny boxes. :)
