Hello,

I'm trying to migrate a container from a CentOS machine to another. Here's the output:

Any idea of how to fix this?

Thanks!

Hi,

- can you check your logs, why the connection via ssh/rsync is - closed?

Please post more info - used OpenVZ Systems/Software:
- disto of both nodes are CentOS? Version?
- OpenVZ (kernel) version?
- vzctl version ?
- Erros in any logs, syslog etc

Bye,
 Thorsten
