Subject: porting openwrt to openvz Posted by Benjamin Henrion on Sun, 30 Sep 2012 22:24:32 GMT View Forum Message <> Reply to Message

Hi,

I am having trouble to configure the venet0 interface inside an openwrt rootfs:

http://www.zoobab.com/openwrt-openvz-template

Any idea how to configure the venet0?

"In July 2005, after several failed attempts to legalise software patents in Europe, the patent establishment changed its strategy. Instead of explicitly seeking to sanction the patentability of software, they are now seeking to create a central European patent court, which would establish and enforce patentability rules in their favor, without any possibility of correction by competing courts or democratically elected legislators."
