Subject: [PATCH v6 04/10] ipc: add new SHM\_SET command for sys\_shmctl() call  
Posted by [Stanislav Kinsbursky](#) on Mon, 15 Oct 2012 15:59:56 GMT

[View Forum Message](#) <> [Reply to Message](#)

---

New SHM\_SET command will be interpreted exactly as IPC\_SET, but also will update key, cuid and cgid values. IOW, it allows to change existent key value. The fact, that key is not used is checked before update. Otherwise -EEXIST is returned.

Signed-off-by: Stanislav Kinsbursky <skinsbursky@parallels.com>

Looks sane (modulo 'fallsthrough' comment already requested)

Acked-by: Serge E. Hallyn <serge.hallyn@ubuntu.com>
