Hello,

As I know, up to now, OpenVZ has not released the ovzkernel rebased to CentOS 5.9 one (2.6.18-348).

Do anyone knows any issue to update the host and guest to CentOS 5.9 , but keep the ovzkernel to latest (2.6.18-308.8.2.el5.028stab101.1) ?

Thank you very much for kind attention.

Regards
George
