```
/* Don't allow kernel_thread() inside VE */
if (!ve_is_super(get_exec_env())) {
    printk("kernel_thread call inside VE\n");
    dump_stack();
    return -EPERM;
}
```

Could you please check that your script files have execute permission (x-bit set)?

vaverin wrote on Wed, 20 September 2006 07:29 Could you please check that your script files have execute permission (x-bit set)?

Yes bit checked.

Scripts work if it placed in directory /etc/vz/conf

Some distributive dependences, possible?
