Committed in 022stab053

Patch from Denis (den@):

This patch fixes netlink\_autobind to make `ip rule show` works inside VE as it checks the destination PID on the message against value obtained via getpid().

Bug #55602

```
--- ./net/netlink/af_netlink.c.virt 2005-12-10 13:30:56.000000000 +0300
```

```
+++ ./net/netlink/af_netlink.c 2005-12-10 13:51:32.000000000 +0300
```

```
