Hi,

when i enter a ve with enabled and configed veth device,
i can see all running veth-devices on the hardware node
like "cat /proc/vz/veth" ... is this correct ?

tested on a ovzkernel 026test017.1

Regards,
Thorsten

Do you mean this bug?
Then it'll be fixed in the next kernel...

Hi,

> Do you mean this bug?

bug -> I take a look at bugzilla @ openvz :

... you mean bug #271, right ?

I'll test the patch ...

... and it works ...!

Thanks and Regrads,
Thorsten
