Subject: megaraid question
Posted by sleon on Mon, 25 Sep 2006 01:29:09 GMT

i am using opensource megaraid driver (2.6.17) . Do you know any opensource monitoring tool for the opensource megaraid drivers Or is there a way to check the state of harddrives connected to the megaraid controller?

As far as I know our some of our customers are using MegaRC utility. You can find it on LSI Logic web site:

http://www.lsilogic.com/cm/DownloadSearch.do

Also some useful information about this utility you can find here:
http://www.dubuque.k12.ia.us/it/megarc/

Thank you,
