## Subject: High LoadAvg on CT and node blocked Posted by imginer on Wed, 18 Sep 2013 07:18:09 GMT

View Forum Message <> Reply to Message

Hi, since some time I'm a CPU issue on some CTs, sometimes is one CT, and sometimes is other CT, but every weeks I need to reboot the node for this cause, If I try to stop the CT, I can't... timeout.

If I try to do a vzctl enter CT, I can't... timeout.

But all other CTs on this node run Ok.

If I try to create a new CT during the CPU overload, I can't... timeout.
