Hello,

i have script which automates backup proces of openvz VMs and it returned error:

```
./vmsbackup: line 26: /usr/bin/vzdump: No such file or directory
```

i tried:

```
yum install vzdump
```

Package vzdump-1.1-1.noarch already installed and latest version

please any idea why its not there in /usr/bin and how to fix it?

I think its fixed. the vzdump file is in "sbin", not "bin", not sure why.
