---

hi i restart a vps and don't up this vps then i find info in google and i see this line

```
rm /var/vzquota/quota.xxx
```

```
vzctl start xxx
```

but my vps can't run i see only this

```
Starting container...
```

```
Initializing quota ...
```

```
vzquota : (error) quota check : lstat `1Vrr1F-0002d0-NY': No such file or directory
```

```
vzquota init failed [1]
```

and i want use this command

```
vzquota off xxx
```

```
vzquota on xxx
```

and i see only

```
vzquota : (error) Can't open quota file for id xxx, maybe you need to reinitialize quota: No such file or directory
```

pls any new?? very thanks and sorry my english
