## Subject: cPanel / Account quota Posted by silence on Thu, 13 Feb 2014 09:42:20 GMT View Forum Message <> Reply to Message

Hi,

I've installed cpanel in some VPS, but now, some account shows 20 GB of used space, but only has around 2.8GB.

I think maybe the quotas may be broken:

Isattr: Operation not supported While reading flags on /aquota.user

how can i solve this?

Thanks
