Hi list,

As I need the VEID number when bringing up veth interface,
I changed init to VEID.
(I have a vlan and bridge for each VE)

```
vznetcfg init veth <dev>
vznetcfg <veid> veth <dev>
```

Best regards,

Segtel A/S

Yes, feel free.

Regards,
Kristian.

Fine, works for me

Regards,
Kristian.
