Hi OpenVZ,

Can you renew the SSL cert on <https://bugs.openvz.org>? it expires/d today.

For those needing to access it and not being able to ignore/skip the error within Chrome, this works for me;

google-chrome --ignore-certificate-errors

Gr, J

Subject: Re: SSL cert on <https://bugs.openvz.org> expired - solved

Hi,

it's fixed - the new certs are rolled out.

Regards,
Thorsten

Subject: Re: SSL cert on <https://bugs.openvz.org> expired - NOT solved

No, it's not fixed as the certificate is only valid for bugs.openvz.org, buit not for bugzilla.openvz.org. So you can not connect with a sane browser at the moment! FireFox says:

bugzilla.openvz.org uses an invalid security certificate.
The certificate is only valid for bugs.openvz.org
Error code: SSL_ERROR_BAD_CERT_DOMAIN

Cheers,
Joachim
