Dear newcomers, we have closed auto-registration on this forum.

Please use mailing lists for discussions (http://lists.openvz.org/mailman/listinfo, for example -"Users" or "Devel" lists) or jira for new problem reports.

In case of necessary please send forum registration request into "Users" mailing list, we'll create new accounts manually.

Last time we got huge number of new spammers accounts and need to fight somehow against this problem.

Thank you, Vasily Averin
