Hi all,

Although a firewall on the node is not a must, I just want to use it e.g.

I wonder which ports have to be open on the to let all traffic to VE's through?

Thanks in advance!

Frans

Hello,

Quote:I wonder which ports have to be open on the to let all traffic to VE's through?

The matter is not ports, rather IP adresses. You should allow all traffic for IP adresses, that are assigned to VEs.

HTH,
Vasily.

Thanks for your useful tip!

Why did I not think of this simple solution....
