I've this error on both virtuozzo 2.6 and 2.6.2

I'm unsure where i can gain support from.. only way is to find OpenVZ

Sorry this is not a place for Virtuozzo-related troubles. Proper way would be to contact SWsoft's tech support; I believe their address is support-at-swsoft.com or something like this. Or, ask a person from whom you bought Virtuozzo about how to get support.
