i can't use iptable in VE on server Installed with FC6 and kernel 2.6.18-028test007

```
root@virt121 [/]# /etc/init.d/iptables restart
```

```
Flushing firewall rules: [ OK ]
```

```
Setting chains to policy ACCEPT: mangle filter [ OK ]
```

```
Unloading iptables modules: lsmod: QM_MODULES: Function not implemented
```

```
lsmod: QM_MODULES: Function not implemented
```

```
[FAILED]
```

```
Applying iptables firewall rules: [ OK ]
```

IN VE ->

-> lsmod

```
Module          Size Used by Tainted: P
```

```
lsmod: QM_MODULES: Function not implemented
```

i don't understand why ..

Thanks
