Hi,

I use both openvz (for fun!) and virtuoizzo (for work).

With virtuoizzo, my ve's can share files from templates:

```
lrw-r--r-- 1 root  root    47 Jul 10 2003 anacrontab ->
////fedora-core-1/anacron-2.3-29/etc/anacrontab
lrw-r--r-- 1 root  root    45 Aug 29 2002 bashrc ->
////fedora-core-1/setup-2.5.27-1.1/etc/bashrc
drwxr-xr-x 2 root  root    1024 Jun  5 2003 cron.d
drwxr-xr-x 2 root  root    1024 Mar 15 2005 cron.daily
drwxr-xr-x 2 root  root    1024 Mar 15 2005 cron.hourly
drwxr-xr-x 2 root  root    1024 Mar 15 2005 cron.monthly
drwxr-xr-x 2 root  root    1024 Mar 15 2005 cron.weekly
lrw-r--r-T 1 root  root    45 Feb  7 2003 crontab ->
////fedora-core-1/crontabs-1.10-5/etc/crontab
lrw-r--r-- 1 root  root    48 Mar 11 2002 csh.cshrc ->
////fedora-core-1/setup-2.5.27-1.1/etc/csh.cshrc
lrw-r--r-- 1 root  root    48 Mar 11 2002 csh.login ->
////fedora-core-1/setup-2.5.27-1.1/etc/csh.login
```

However I cannot seem to link files from outside a ve in openvz.

Is this a virtuoizzo feature only?

Thanks

This can be accomplished with a hard link however, though both VPSs have to be on the same volume/filesystem
