
Subject: problem with memory on new vps
Posted by [pppy](#) on Tue, 30 Jan 2007 10:16:47 GMT
[View Forum Message](#) <> [Reply to Message](#)

I get some trouble with my new VPS.

```
server use
# uname -a
Linux 2.6.8-022stab078.10-enterprise #1 SMP Wed Jun 21 12:20:51 MSD 2006 i686 i686 i386
GNU/Linux
```

vps is CentOS with apache, mysqld, php and vsftpd

We have 5 vps on this server and they work ok. But my new vps crashes every day with memory.

It runs ok after restart by `#vzctl stop 104`

That's what I get when the server crashes:

on vps ssh login: (some times I can't login by ssh on vps)

```
-----
Last login: Mon Jan 29 11:07:39 2007
id: error while loading shared libraries: libc.so.6: failed to map segment from shared object:
Cannot allocate memory
-bash: [: =: unary operator expected
/bin/hostname: error while loading shared libraries: libc.so.6: failed to map segment from shared
object: Cannot allocate memory
dircolors: error while loading shared libraries: libc.so.6: failed to map segment from shared object:
Cannot allocate memory
-----
```

on main server

```
-----
# /usr/sbin/vzctl exec 104 service sshd status
bash: error while loading shared libraries: libtermcap.so.2: failed to map segment from shared
object: Cannot allocate memory
-----
```

I made search on forum and found only this thread
http://forum.openvz.org/index.php?t=tree&goto=8153&&srch=libtermcap#msg_8153
but I don't have `mod_secure` in apache

pls help.

btw dmesg is empty
I didn't find something interesting in /var/log/messages

in HN:

cat /proc/user_beancounters

Paste results here if you are not sure how to interpret them.

the same shit again today..

thst is #cat /proc/user_beancounters before restart VPS

problem with 104 vps.
 please help

cat /proc/user_beancounters

Hello,

You have a great resource shortage in all VEs!

Increase limits/barriers for parameters, which have failcounters in /proc/user_beancounters.

You can get more information about the subject at wiki:

http://wiki.openvz.org/Resource_shortage

HTH,

Vasily
