Subject: Using NAT in VE problem? help~~~
Posted by astaka on Sat, 10 Feb 2007 00:03:10 GMT

I executed:
iptables -t nat -A POSTROUTING -s 10.2.2.0/24 -j MASQUERADE

and I got thest messages:
iptables v1.3.5: Couldn't load target `MASQUERADE':/lib/iptables/libipt_MASQUERADE.so:
cannot open shared object file: No such file or directory

but I check I have /lib/iptables/libipt_MASQUERADE.so both in HN and VE already.
