I have a fresh install of OpenVZ and I need to enable ES locales in my
VPSs, what I need to do? I need to install the templates first?

Thanks for your help

This forum thread should be helpful.
http://forum.openvz.org/index.php?t=msg&goto=3166

When you will solve your problem, I suggest you to go to wiki.openvz.org
and create an article with the solution.
