Hi,

Is there a way to obtain the current CPU utilization for a particular VPS?

How do I figure out CPU utilization:

1. utilization with reference to VPS CPU limit
2. utilization with reference to the HW node

Regards,

--

Shuveb Hussain.

I blog at <http://binarykarma.org>

Spread the Karma.

Here was a thread related to this:

<http://forum.openvz.org/index.php?t=tree&th=479&mid=2771&&rev=&reveal=>

Thanks,

Kirill
