Hello

After the 2. Server is running, we have a routing Problem.

We have this layout:

Server1, with VE100 and VE110
Server2, with VE200 and VE210

I can ping (xx):

	Server1	VE100	VE110	Server2	VE200	VE210
Server1	XX	XX	XX	XX	XX	XX
VE100	XX	XX	XX			
VE110	XX	XX	XX			
Server2	XX	XX	XX	XX	XX	XX
VE200			XX	XX	XX	
VE210			XX	XX	XX	

iptables are empty.

I can ping all Host from other Hosts...

See somebody the Problem?

Grisu

ok, is fixed:

I miss 'sysctl -w net.ipv4.conf.eth0.proxy_arp=100' ...

Thanks

Grisu
