i had problem when installing an rpm, below is the screen capture:

```
rpm -ivh slocate-2.7-13.el4.6.i386.rpm
Preparing... ##### [100%]
 1:slocate      warning: /etc/updatedb.conf created as /etc/updatedb.conf.rpmnew
##### [100%]
error: unpacking of archive failed on file /usr/bin/locate: cpio: chown failed - Disk quota exceeded
```

i run it as 'root', how come root have quota limit?

running 'quota' will result:

```
quota
Disk quotas for user root (uid 0): none
```

Best Regards,
Markus

Subject: [Users] strange problem with quota when try to install using rpm

i had problem when installing an rpm, below is the screen capture:

```
rpm -ivh slocate-2.7-13.el4.6.i386.rpm
Preparing... ##### [100%]
 1:slocate      warning: /etc/updatedb.conf created as /etc/updatedb.conf.rpmnew
##### [100%]
```

error: unpacking of archive failed on file /usr/bin/locate: cpio: chown failed - Disk quota exceeded

i run it as 'root', how come root have quota limit?

running 'quota' will result:

quota

Disk quotas for user root (uid 0): none

Best Regards,
Markus

Yes I already install RPM on the VE :

```
# rpm -q rpm
rpm-4.3.3-18_nonptl
```

other thing when i try to extract rkhunter tarball i got this message:

```
tar: rkhunter-1.2.9/files/tools: Cannot change ownership to uid 3878, gid 502: Disk quota
exceeded
tar: rkhunter-1.2.9/files: Cannot change ownership to uid 3878, gid 502: Disk quota exceeded
tar: rkhunter-1.2.9/installer.sh: Cannot change ownership to uid 3878, gid 502: Disk quota
exceeded
tar: rkhunter-1.2.9: Cannot change ownership to uid 3878, gid 502: Disk quota exceeded
tar: Error exit delayed from previous errors
```

that
error message happens when i try to extract the file using root
account, when i try to extract it using normal user account it
extracted successfully.

Best Regards,
Markus
